#### DO YOU KNOW!!!

Qatar said on Wednesday it welcomed a recent drive by Twitter TWTR.N to remove millions of automated spam bots from its website, many of which it said were being used to attack it amid a protracted dispute with its neighbours. Online attacks against the small Gulf state have surged since Saudi Arabia, the UAE, Bahrain and Egypt launched a trade and diplomatic boycott against Qatar in June 2017. "Qatar recognizes that many of Twitter's efforts have helped remove some of the weaponized propaganda and hate speech spread against our nation during the current blockade," Automated bot accounts flooded social media last month, with many of them promoting messages which supported Saudi Arabia and cast doubt on allegations that the kingdom was involved in the killing of journalist Jamal Khashoggi. Twitter has since said that it has removed large numbers of accounts for breaching its terms of use in recent weeks, many of them originating from the Gulf region.

## TECHNICAL ANALYSIS

	SUPPORT	SPOT	Δ	RESISTANCE	COMMENTS
<b>EUR/USD</b>	1.1050 - 1.1240	<b>1.1340</b>	0.00%	1.1460 - 1.1617	<b>EUR/USD</b> The bulls have regained control following Italy's PM optimistic talk about 2019 budget which could bring the recovery further towards 1.14 if ECB Draghi manages today to reaffirm its commitment to end the QE program in December. The bounce, if confirmed, would validate a bearish-to-bullish trend reversal. Stay tuned!
<b>USD/JPY</b>	112.25 - 113.30	<b>113.35</b>	-0.13%	114.82 - 115.80	<b>USD/JPY</b> The Brexit issues are shifting investors' attention towards the safe haven yen and squashing any resulting optimism over the US-Sino trade developments. Looking ahead, we expect the price action to remain directionless inside 113/114 range awaiting further guidance.
<b>GBP/USD</b>	1.2500 - 1.2720	<b>1.2795</b>	-1.73%	1.2825 - 1.3026	<b>GBP/USD</b> The Tense Thursday has left a wounded soldier as Brexit headlines continue to tear up the UK's parliament. With the slew of resignation that has just started, we expect the political crisis to be Brentented well into the weekend keeping the pair exposed to a high volatility throughout the day. 1.27 & 1.30 are levels to be carefully watched!!!
<b>USD/CHF</b>	0.9865 - 1.0009	<b>1.0065</b>	0.05%	1.0243 - 1.0445	<b>USD/CHF</b> is stepping into Friday's session locked between 1 & 1.01 patterns even though the greenback is still seen to remain well supported inside this vicinity.
