DO YOU KNOW!!!

One Instagram fitness blogger who calls herself Fit Pham posted one of her own on Tuesday, but not to show off progress. Instead, she used a fake transformation post to show that these photos don't always tell the full story. "#TransformationTuesday coming in hot with a 30-second transformation ... based on how high I pull my leggings up," the Denver blogger wrote alongside her post. Her photo, which showed three versions of herself side by side, makes it seem like a progress photo, but she took them only 30 seconds apart. Her body looks different based only on how high or low she placed her leggings. She wrote that she wanted women to know that few "very few few few people" actually walk around with abs all the time, despite what their photos may show.

TECHNICAL ANALYSIS

	SUPPORT	SPOT	Δ	RESISTANCE	COMMENTS
EUR/USD	1.1460 - 1.1617	1.1700	-0.30%	1.1874 - 1.2049	EUR/USD It was basically a EURO weakness story based on the German political limbo and Draghi that put the pair in malaise below 1.1800. The calendar is relatively sparse except for the minutes from FED's Nov meeting due on Wednesday before markets close for Thanksgiving. We expect volatility to carry on inside 1.1680/1.1860 until the releases.
USD/JPY	110.18 - 112.10	112.55	0.40%	113.30 - 114.50	USD/JPY In an environment where policy and political uncertainties remain elevated it is difficult to see anything but USD losing out. However, Fed Yellen speech and the scheduled FOMC minutes for tomorrow might add to the pair's gains; hence riding the upward correction inside 111.60/113.30 range while using tight stops is recommended as sell-offs might be triggered at any moment.
GBP/USD	1.3026 - 1.3120	1.3250	0.34%	1.3380 - 1.3643	GBP/USD action is seen limited inside 1.32/1.33 patterns as we are heading to the BoE's inflation report hearings later today. Slowing economic outlook would pour cold water on future rate hike expectations and push the pair lower; on the flip side, positive attitude will encourage bulls to reclaim the 1.33 handle. Stay tuned.
USD/CHF	0.9742 - 0.9865	0.9930	0.35%	1.0009 - 1.0243	USD/CHF range-play between 0.9865 and 0.9940 is likely to carry on until fresh directional news hit the wire.
